## DECISIONS

The fourth transnational meeting was held at the end of June in Slovakia.

The meeting required the participation of the coordinator or a responsible person, who is supposed to be fully acquainted with the project. Participants visited the school, met the mayor, project management team, students and parents. They evaluated the actual stage of the project and what has been done throughout the project.

Coordinators evaluated project activities, results and financial management.

They assessed the success of the project and the expected impact, exchanged their opinions and gave their own feedback. They identified good and weak points.

They presented the SWOT analyses - identified good and weak points.

The Greek coordinator informed about the evaluation of questionnaires.

The Slovak coordinator informed about the results of the common fitness pretests and posttests.

The main coordinator of the project exhorted the participating persons to complete all missing material so that the final report can be successfully submitted on time.

### Decision 1:

All coordinators are responsible for uploading of the outcomes.

### Decision 2:

Each school will complete information about the project and its results by its own websites with complete information about every stage of the project with photos and outputs.

Decision 3: Each school will complete the eTwinning project space with missing information.

Decision 4: The Romanian team will upload all created material on the common project website and finish the magazine Benefits of sport and upload it.

Decision 5: The Slovak team will finish the book HEALTH GUIDE for teens.

Decision 6: All coordinators will work on final reports so that they could be submitted at the beginning of September.

Decision 7: The Slovak coordinator is responsible for Erasmus+ Project results platform.

Decision 8: The students' and parents' feedback will be displayed on the project website and the eTwinning space.

Decision 9: All Erasmus teams are responsible for enhancing sustainability of the project results.
